

Sarvjeet Kumar

Govindpuri, New Delhi | 9608485324 | Sarvjeetks5@gmail.com

www.linkedin.com/in/sarvjeet-kumar-165622159/

Professional Summary

Proficient in ASP.NET (C#, .NET, MVC), Web API, Entity Framework, Angular, TypeScript, MS SQL Server, ASP.NET Core, jQuery & Webforms, Troubleshooting, Debugging and Solution Build. Comprehensive understanding of the Software Development Life Cycle phases, including requirements gathering, documentation, development, and post-implementation maintenance. Skilled in stakeholder engagement for requirements elicitation. Adept at working in multicultural agile teams. Experienced in managing application-centric process initiatives, focusing on process customization, optimization, and delivering robust technical solutions. Proven ability to lead and motivate small development teams with strong expertise in client engagement and support.

Work Experience

June 2025 – Present | INFINITE COMPUTER SOLUTIONS LTD, NOIDA

Full Stack Engineer

Project: PFMS (Public Financial Management System)

- Working on **PFMS Integration & Payment Processing** as a Software Engineer.
- Developing and integrating **REST APIs / Web APIs** for application and system integration.
- Working on **Payment Gateway and API Integration** for payment processing workflows.
- Developing and maintaining web applications using **ASP.NET, ASP.NET MVC and ASP.NET Core**.
- Developing, consuming and testing **RESTful APIs** using C# and Postman.
- Working on **system upgrades, application enhancements and performance improvement**.
- Troubleshooting application issues, debugging and providing technical solutions.
- Working with **BizTalk** for system integration and message processing.
- Developing and maintaining **Crystal Reports** as per business/reporting requirements.
- Participating in application maintenance, enhancement and production support activities.

September 2025 – March 2026 | ITDOSE INFOSYSTEMS PVT LTD, NOIDA

Full Stack Engineer

Project: INNOPATH (LIMS) - Laboratory Information & Management System

INNOPATH is a web-based LIMS designed to streamline laboratory operations, automate workflows, and manage critical diagnostic data across multiple facilities. The platform enables centralized sample tracking, report generation, instrument integration, regulatory compliance, and enterprise-wide information management for diagnostic and pathology lab networks.

- **Architecture:** Developed and maintained a 3-Tier Architecture application, ensuring proper separation between Presentation Layer, Business Logic Layer, and Data Access Layer for better scalability and maintainability.
- **Backend (ASP.NET):** Developed server-side application logic. Implemented business logic components to manage laboratory workflows and data processing. Designed structured data access mechanisms. Handled application-level validations and optimized backend performance.
- **Frontend (HTML, CSS, JavaScript, jQuery, AJAX):** Designed and developed responsive user interfaces. Implemented dynamic functionality and client-side validations. Used AJAX for asynchronous data communication to enhance user experience and minimize page reloads.
- **Database (MySQL):** Designed and managed relational database structures. Wrote optimized SQL queries, stored procedures, and joins for efficient data retrieval. Improved database performance through indexing and query tuning.
- **Performance & Issue Resolution:** Optimized application performance across frontend and backend layers. Resolved critical production issues (P1/P2) in a fast-paced development environment.

April 2022 – October 2024 | EXCELSOFT TECHNOLOGIES PVT LTD, NOIDA

Full Stack Engineer

Project: CollegeSPARC BYUI I Plan E-learning Application

CollegeSPARC is an end-to-end solution for student success, advising and student retention management needs. It allows universities to provide effective advising, covering all aspects of a student's educational journey.

- Architecture: Developed and maintained an N-tier architecture application, ensuring a clear separation of concerns across the data, business logic, and presentation layers.
- Backend (ASP.NET, Entity Framework): Utilized Entity Framework with the Code First approach. Implemented Repository patterns for better data access management. Developed Handlers and Helpers to modularize business logic. Employed Constructor injection to manage dependencies and improve code testability.
- Frontend (Angular, Angular Material): Designed and developed dynamic, responsive UI components using Angular Material. Consumed RESTful APIs from .NET backend services to ensure seamless data flow and user interactions.
- Database (MSSQL Server): Managed database interactions through Entity Framework and optimized queries for better performance.
- Background Processing (Hangfire): Integrated Hangfire for efficient task scheduling and background processing to enhance application performance.

June 2021 – March 2022 | QUALTECH CONSULTANTS PVT LTD, NOIDA

Associate Engineering Analyst

Project: Maxlife One APP - Insurance & Wellness Mobile App

Max Life One is a customer-centric insurance and wellness mobile application developed for Axis Max Life Insurance Limited. The application enables users to manage their insurance policies, make premium payments, access policy documents, and utilize wellness-related services through a secure digital platform.

- Developed and maintained key features of the Max Life One mobile application using JavaScript.
- Worked on frontend modules for policy management, premium payments, and customer dashboards.
- Integrated RESTful APIs for real-time policy data and transaction processing.
- Implemented secure authentication and session management features.
- Fixed production issues and improved application performance and responsiveness.

Skills

- ASP.NET (C#, .NET, MVC) • ASP.NET Core • Web API & REST API • Entity Framework • Angular • JavaScript
- TypeScript • jQuery • Webforms • MS SQL Server • Git, Postman, Jira • Troubleshooting • Debugging,
- Solution Build • Visual Studio • Data Copilot

Education

M.C.A – A.K.T.U, Lucknow, U.P – 73%

B.C.A – B.R.A.B.U, Muzaffarpur, Bihar – 67%
